SUBJECT INDEX OF VOLUMES 163 & 164

Abbreviations: C Comment; CR Case Report; E Editorial; GE Guest Editorial; PV Personal View; R Review; SC Short Communication

abdominal cryptorchidism, boar scrotal and abdominal testes, histochemical study of interstitial tissue **163**: 68–76
acaricide, control of *Varroa destructor* in bee colonies using oxalic acid **163**: 306–10
acute abdomen, plasma trypsin level in horses with acute intestinal obstruction **163**: 283–91
adaptation
  newborn calves: effect of resuscitation procedures on respiratory and metabolic adaptation to extra uterine life **163**: 30–44
  optimal timing of elective Caesarean section in Belgian White and Blue cattle and **163**: 267–82
adrenaline, neuroendocrine responses of horses to treadmill exercise, effect of on **164**: 54–63
airborne dust, cardboard bedding for heaves-affected horses **163**: 319–25
albendazole sulphoxide, placental transfer of enantiomers in sheep **163**: 155–60
anaesthesia
  holter-monitoring in perianaesthetic period in dogs premedicated with dexmedetomidine **164**: 235–9
  comparison of epidural with lignocaine or xylazine in cats **163**: 335–6 (SC)
animal models
  for chronic atrial fibrillation, equine model **164**: 142–50
  for orthopaedic disease **163**: 230–1 (GE)
  for osteoporosis in humans, sheep model **163**: 232–9 (R)
antebrachium, therapeutic ultrasound and distal antebrachial growth plates in one-month-old rabbits **164**: 280–7
antibodies, virus neutralising antibodies against bovine viral diarrhoea virus isolates in vaccinated calves **163**: 61–7
antigens, canine toxoplasmosis, IFAT, ELISA, and SAG-1 reactivity in **163**: 94–8 (SC)
antihelmintics
  albendazole sulphoxide enantiomers in sheep, placental transfer of **163**: 155–60
  doramectin and ivermectin, pharmacokinetics after oral administration in horses **163**: 161–7
Apis mellifera, control of *Varroa destructor* in bee colonies using oxalic acid **163**: 306–10
arrhythmia, holter-monitoring in perianaesthetic period in dogs premedicated with dexmedetomidine **164**: 235–9
artificial neural network, supporting forelimb lameness in horse, computerized detection of using artificial neural network **163**: 77–84
atrial fibrillation
  equine, onset and perpetuation **164**: 87–9 (GE)
  equine model of **164**: 142–50
Aujeszky's disease, new vaccines **164**: 165–7 (GE)
avian influenza research
  meeting the needs of poultry veterinarians? **164**: 173–5 (GE)
  recent developments in, epidemiology and immunoprophylaxis **164**: 202–15 (R)

Babesia infection, persistence of infection following vaccination with antibabesial vaccines **164**: 64–8
bacterial diseases, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
badger, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
bat, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
bedding, cardboard bedding for heaves-affected horses **163**: 319–25
bee, control of *Varroa destructor* in bee colonies using oxalic acid **163**: 306–10
Belgian White and Blue cattle
  elective Caesarean section in **163**: 267–82
  welfare problems in Belgian Blue cattle **163**: 228–9 (GE)
beta-adrenergic agonists, testicular damage from clenbuterol treatment in pig **163**: 292–8
bilirubinaemia, effect of on capillary zone electrophoresis of canine samples **164**: 261–8
biomechanics, canine hind limb: calculation of forces during three-legged stance **163**: 240–50
biotin, healing of uncomplicated sole ulcers in dairy cattle and **163**: 51–60
birth
  elective Caesarean section in Belgian White and Blue cattle **163**: 267–82
  resuscitation procedures and respiratory and metabolic adaptation to extra uterine life in newborn calves **163**: 30–44
  trans-abdominal B mode ultrasonography to diagnose intrapartum uterine torsion in the ewe **164**: 69–70 (SC)
  welfare problems in Belgian Blue cattle **163**: 228–9 (GE)
bluetongue
  bluetongue virus in the Mediterranean basin, 1998–2001 **164**: 20–37 (R)
  re-emergence of **164**: 5–6 (GE)
boar
  Mycobacterium bovis infection in UK wild mammals **164**: 99–105 (R)
  scrotal and abdominal testes, histochemical study of interstitial tissue **163**: 68–76
body composition
  body fat: handicap to racehorses? **163**: 223–5 (GE)
  fat-free mass related to performance in standardbred horses **163**: 260–6
  horse body composition and muscle architecture: implications for performance **164**: 224–34 (R)
bone
  fractures, a preventable hazard of racing thoroughbreds **163**: 5–6 (GE) **163**: 19–29 (R)
  sheep as model for osteoporosis in humans **163**: 232–9 (R)
  therapeutic ultrasound and distal antebrachial growth plates in one-month-old rabbits **164**: 280–7
bone marrow aspirates, quantification of thrombopoietic activity in dogs **164**: 269–274
book reviews
  Advances in strabismus research: basic and clinical aspects **164**: 163
  Anatomy of the horse: an illustrated text **164**: 303–4
  Avian medicine **163**: 76
  The biology of animal stress: basic principles and implications for animal welfare **164**: 77
  Diagnosing lameness in dogs **164**: 81
  Digestive physiology of pigs **164**: 279
  Diseases of sheep, 3rd ed. **164**: 78
  Dogs, zoonoses and public health **164**: 80
  Ear diseases of the dog and cat **164**: 158
  Equine artificial insemination **164**: 162
  The health of dairy cattle **164**: 77
  Hereditary bone and joint diseases in the dog **164**: 79
  Infectious diseases in camelids **164**: 301
  The laboratory rat **164**: 141
  Modelling nutrient utilization in farm animals **163**: 67
  Natural cancer compounds in cancer therapy: promising nontoxic antitumor agents from plants and other natural sources **164**: 150
  Nematode parasites of vertebrates: their development and transmission **164**: 81
  Parasitic diseases of wild mammals, 2nd ed. **164**: 302
  Physical therapy and massage for horses, 2nd ed. **164**: 86
  Practical exercises in parasitology **164**: 84
  Pre-veterinary nursing textbook **164**: 167
  Principles of cattle production **164**: 300
  Quantitative trait loci analysis in animals **164**: 302–3
  Small animal nutrition **164**: 170
  Small animal ophthalmic surgery: practical techniques for the veterinarian **164**: 299
  Social behaviour in farm animals **164**: 304–5

doi:10.1016/S1090-0233(02)00323-4

Veterinary anesthesia **164**: 305
The veterinary receptionist: essential skills for client care **164**: 163
Veterinary toxicology **164**: 187
bovine mastitis
an evolving disease **164**: 116–28
how to get out of the Dark Ages **164**: 85–6 (GE)
bovine tuberculosis
Mycobacterium bovis infection and tuberculosis in cattle **163**: 115–27 (R)
new perspectives in **163**: 109–10 (GE)
bovine virus diarrhoea
bovine virus diarrhoea virus—which way to turn? **163**: 226–7 (GE)
failure to spread bovine virus diarrhoea virus infection despite concurrent infection with bovine coronavirus **163**: 251–9
pre-natal diagnosis of persistent bovine viral diarrhoea virus infection by detection of viral RNA in fetal fluids **164**: 151–5 (SC)
virus neutralising antibodies against bovine viral diarrhoea virus isolates in vaccinated calves **163**: 61–7
wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
breed differences, moxidectin topically applied to calves, breed differences on plasma availability of **164**: 47–53
breeding
elective Caesarean section in Belgian White and Blue cattle **163**: 267–82
welfare problems in Belgian Blue cattle **163**: 228–9 (GE)
bronchitis, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
bronchoalveolar lavage fluid (BALF), cytology of in canine pulmonary eosinophilia **163**: 168–81
brown hare, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
brown rat, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
Brucella, polymerase chain reaction (PCR) to detect in milk of infected cattle, sheep, goats, and camels **163**: 299–305

calf
see also cattle
Candida glabrata, influence of diet on shedding of by preweaned calves **164**: 275–9
elective Caesarean section in Belgian White and Blue cattle **163**: 267–82
failure to spread bovine virus diarrhoea virus infection despite concurrent infection with bovine coronavirus **163**: 251–9
moxidectin topically applied, breed differences on plasma availability of **164**: 47–53
nursing procedures and adaptation at birth **163**: 30–44
virus neutralising antibodies against bovine viral diarrhoea virus isolates in vaccinated calves **163**: 61–7
welfare problems in Belgian Blue cattle **163**: 228–9 (GE)
calving, lameness: changes in support structures of bovine hooves around time of first calving **163**: 196–204
camel, polymerase chain reaction (PCR) to detect brucella species in milk of infected animals **163**: 299–305
Campylobacter spp., strain differentiation by multiplex PCR assay **163**: 102–4 (SC)
cancer *see* oncology
Candida glabrata, influence of diet on shedding of by preweaned calves **164**: 275–9
canine pulmonary eosinophilia, clinical findings and matrix metalloproteinases in **163**: 168–81
canine toxoplasmosis, IFAT, ELISA, and SAG-1 reactivity in **163**: 94–8 (SC)
capillary zone electrophoresis, of canine samples, effect of haemolysis, lipaemia, bilirubinaemia, and fibrinogen on **164**: 261–8
carcinosarcoma, of the lung in dog, gross and microscopic examination **163**: 331–4 (SC)
cardboard bedding, for heaves-affected horses **163**: 319–25
cardiac function
holter-monitoring in perianaesthetic period in dogs premedicated with dexmedetomidine **164**: 235–9
atrial fibrillation in the horse: onset and perpetuation **164**: 87–9 (GE)
carnivores, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
cat
comparison of epidural anaesthesia with lignocaine or xylazine in **163**: 335–6 (SC)
Mycobacterium bovis infection in UK wild mammals **164**: 99–105 (R)
N-ras mutation in feline lymphoma **163**: 326–8 (SC)
post-weaning feeding problems in young domestic cats **163**: 113–14 (SC)
radiation therapy for tumor treatment in small companion animals **164**: 176–87 (R)
serum inhibition of *Porphyromonas gingivalis* protease in **163**: 99–101 (SC)
vaccine-associated-like fibrosarcoma at site of deep nonabsorbable suture in **163**: 105–7 (SC)
cattle
see also calf
Aujeszky's disease, new vaccines **164**: 165–7 (GE)
Babesia bovis and *Babesia bigemina*: persistence of infection in Friesian cows following vaccination with antibabesial vaccines **164**: 64–8
bovine tuberculosis, new perspectives in **163**: 109–10 (GE)
bovine viral diarrhoea virus
failure to spread bovine virus diarrhoea virus infection despite concurrent infection with bovine coronavirus **163**: 251–9
pre-natal diagnosis of persistent bovine viral diarrhoea virus infection by detection of viral RNA in fetal fluids **164**: 151–5 (SC)
virus neutralising antibodies against BVDV isolates in vaccinated calves **163**: 61–7
which way to turn? **163**: 226–7 (GE)
wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
Candida glabrata, influence of diet on shedding of by preweaned calves **164**: 275–9
composition and milk cell characteristics in quarter milk fractions in cows with low cell count **164**: 254–60
elective Caesarean section in Belgian White and Blue cattle **163**: 267–82
lameness
changes in support structures of bovine hooves around time of first calving **163**: 196–204
Cochrane approach: a new initiative **164**: 3–4 (GE)
systematic compilation and classification of literature **164**: 7–19 (R)
lumbar epidural pressure and postural change **164**: 292–4 (SC)
mastitis
an evolving disease **164**: 116–28
how to get out of the Dark Ages **164**: 85–6 (GE)
moxidectin topically applied to calves, breed differences on plasma availability of **164**: 47–53
Mycobacterium bovis infection and tuberculosis in cattle **163**: 115–27 (R)
oesophageal endoscopy for diagnosis of mucosal disease **163**: 205–10
polymerase chain reaction (PCR) to detect brucella species in milk of infected cattle **163**: 299–305
sole ulcers in dairy cattle, effect of therapeutic dietary biotin on healing of **163**: 51–60

virus neutralising antibodies against bovine viral diarrhoea virus isolates in vaccinated calves **163**: 61–7
welfare problems in Belgian Blue cattle **163**: 228–9 (GE)
cephalexin, pharmacokinetics of in horse **164**: 74–6 (SC)
chicken, avian influenza research: meeting the needs of poultry veterinarians? **164**: 173–5 (GE)
chlamydial disease, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
chondrocalcin, serum and synovial fluid concentrations in dogs **163**: 211–13 (SC)
ciprofloxacin, enrofloxacin pharmacokinetics in goats **163**: 85–93
circovirus
double *in situ* hybridization for detection and differentiation in pigs with postweaning multisystemic wasting syndrome **164**: 247–53
postweaning multisystemic wasting syndrome and—possible new links **164**: 171–2 (GE)
clenbuterol, testicular damage from in pigs **163**: 292–8
clinical obstructive pulmonary disease, relationship between clinical signs and pulmonary function in horses **163**: 187–95
companion animals, radiation therapy for tumor treatment in **164**: 176–87 (R)
computers
2001: a veterinary odyssey **163**: 4 (GE)
supporting forelimb lameness in horse, computerized detection of using artificial neural network **163**: 77–84
congenital abnormalities
congenital sensorineural deafness (CSD), in dalmations, genetics **163**: 311–18
unilateral agenesis of thyrohyoid muscle in a dog **164**: 156–8 (SC)
connective tissue, lameness: changes in support structures of bovine hooves around time of first calving **163**: 196–204
coprodiagnosis, of *Hammondia heydorni* in dogs by PCR **163**: 147–54
cortisol, neuroendocrine responses of horses to treadmill exercise **164**: 54–63
cryptorchidism, boar scrotal and abdominal testes, histochemical study of interstitial tissue **163**: 68–76
cryptosporidiosis, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
cytogenetics, veterinary oncological pathology: current and future perspectives **163**: 7–18 (R)

dairy cattle
Babesia bovis and *Babesia bigemina*, persistence of infection in Friesian cows following vaccination with antibabesial vaccines **164**: 64–8
Brucella species in milk of infected cattle, polymerase chain reaction (PCR) to detect **163**: 299–305
composition and milk cell characteristics in quarter milk fractions in cows with low cell count **164**: 254–60
lameness, changes in support structures of bovine hooves around time of first calving **163**: 196–204
mastitis
an evolving disease **164**: 116–28
how to get out of the Dark Ages **164**: 85–6 (GE)
sole ulcers in dairy cattle, effect of therapeutic dietary biotin on healing of **163**: 51–60
dalmatians, congenital sensorineural deafness in, genetics of **163**: 311–18
deafness, congenital sensorineural deafness in dalmatians, genetics of **163**: 311–18
deer, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
dexamethasone, serum leptin concentration and in dogs **164**: 295–7 (SC)
dexmedetomidine, holter-monitoring in perianaesthetic period in dogs premedicated with **164**: 235–9
diagnostic pathology, veterinary oncological pathology: current and future perspectives **163**: 7–18 (R)
diet
shedding of *Candida glabrata* by preweaned calves **164**: 275–9
sole ulcers in dairy cattle, effect of therapeutic dietary biotin on healing **163**: 51–60
white muscle disease in lambs, selenium content of soil and meadow hay **163**: 214–17 (SC)
disease transmission
failure to spread bovine virus diarrhoea virus infection despite concurrent infection with bovine coronavirus **163**: 251–9
getting wildlife and their diseases in perspective **163**: 111–12 (GE)
wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
dog
agenesis of thyrohyoid muscle in **164**: 156–8 (SC)
bone marrow aspirates of, quantification of thrombopoietic activity in **164**: 269–74
canine pulmonary eosinophilia, clinical findings and matrix metalloproteinases in **163**: 168–81
canine toxoplasmosis, IFAT, ELISA, and SAG-1 reactivity in **163**: 94–8 (SC)
capillary zone electrophoresis of canine samples, effect of haemolysis, lipaemia, bilirubinaemia, and fibrinogen on **164**: 261–8
chondrocalcin in serum and synovial fluid **163**: 211–13 (SC)
congenital sensorineural deafness in dalmatians, genetics of **163**: 311–18
coprodiagnosis of *Hammondia heydorni* in dogs by PCR **163**: 147–54
dexamethasone increases serum leptin concentration **164**: 295–7 (SC)
hind limb: calculation of forces during three-legged stance **163**: 240–50
holter-monitoring in perianaesthetic period in dogs premedicated with dexmedetomidine **164**: 235–9
intervertebral joints in canine pre-diaphragmatic thoracic spine: osteology and morphometry **164**: 216–23
lung carcinosarcoma in, gross and microscopic examination **163**: 331–4
radiation therapy for tumor treatment in small companion animals **164**: 176–87 (R)
semen freezing, effect of Tris-buffer, egg yolk, and glycerol on **164**: 244–6 (SC)
serum inhibition of *Porphyromonas gingivalis* protease in **163**: 99–101 (SC)
tonsillar enlargement and racing performance in greyhounds **164**: 106–15
doramectin, pharmacokinetics of after oral administration in horses **163**: 161–7
double labelling, double *in situ* hybridization for detection and differentiation in pigs with postweaning multisystemic wasting syndrome **164**: 247–53
drug nomenclature, problem of harmonisation for scientific journals **164**: 1–2 (GE)

"Ecstasy", death involving use of 4-methoxyamphetamine **164**: 298
egg yolk, canine semen freezing and **164**: 244–6 (SC)
elective Caesarean section (ECS)
in Belgian White and Blue cattle **163**: 267–82
welfare problems in Belgian Blue cattle **163**: 228–9 (GE)
electrophoresis, capillary zone electrophoresis of canine samples, effect of haemolysis, lipaemia, bilirubinaemia, and fibrinogen on **164**: 261–8

ELISA, *Toxoplasma gondii* cut-off titres in dog sera using immunoreactivity to SAG-1 antigen as molecular marker of infection **163**: 94–8 (SC)
enantiomers, placental transfer of albendazole sulphoxide enantiomers in sheep **163**: 155–60
endectocides, pharmacokinetics of doramectin and ivermectin after oral administration in horses **163**: 161–7
endocrine system, endothelin response in horses during and after exercise **164**: 38–46
endorphin, neuroendocrine responses of horses to treadmill exercise, effect of on **164**: 54–63
endoscopy, oesophageal endoscopy in cattle for diagnosis of mucosal disease **163**: 205–10
endothelin, in horses during and after exercise **164**: 38–46
energy, equine gait: morphological variation and mechanical energy cost **164**: 71–3 (SC)
enrofloxacin, pharmacokinetics in goats **163**: 85–93
enteric bacteria, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
enzootic abortion, pre-natal *Chlamydophila abortus* exposure and outcome of first pregnancy **163**: 329–30 (SC)
epidemiology
  see also disease transmission
  avian influenza research, recent developments in **164**: 202–15 (R)
  bluetongue virus in the Mediterranean basin 1998–2001 **164**: 20–37 (R)
  bovine mastitis: an evolving disease **164**: 116–28
epidural anaesthesia, comparison with lignocaine or xylazine in cat **163**: 335–6 (SC)
equine acute abdomen, plasma trypsin level in horses with acute intestinal obstruction **163**: 283–91
ewe, trans-abdominal B mode ultrasonography to diagnose intrapartum uterine torsion in **164**: 69–70 (SC)
exercise
  in horses
    endothelin response during and after exercise **164**: 38–46
    neuroendocrine responses to treadmill exercise, effects of thermal stress on **164**: 54–63
    structure and function in the exercising horse **164**: 168–70 (GE)
extracellular matrix, boar scrotal and abdominal testes, histochemical study of interstitial tissue **163**: 68–76

facet joint, intervertebral joints in canine pre-diaphragmatic thoracic spine: osteology and morphometry **164**: 216–23
fallow deer, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
feeding, post-weaning feeding problems in young domestic cats **163**: 113–14 (SC)
feline lymphoma, *N-ras* mutation in **163**: 326–8 (SC)
ferret, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
fibrinogen, effect of on capillary zone electrophoresis of canine samples **164**: 261–8
fibroblasts, boar scrotal and abdominal testes, histochemical study of interstitial tissue **163**: 68–76
fibrosarcoma, vaccine-associated-like fibrosarcoma at site of deep nonabsorbable suture in a cat **163**: 105–7 (SC)
fluoroquinolone antibiotics, enrofloxacin pharmacokinetics in goats **163**: 85–93
foot and mouth disease, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
fowl pest, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
fox, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
fractures, preventable hazard of racing thoroughbreds **163**: 5–6 (GE) **163**: 19–29 (R)
Friesian cows, *Babesia bovis* and *Babesia bigemina*: persistence of infection in following vaccination with antibabesial vaccines **164**: 64–8

gait studies, morphological variation and mechanical energy cost in the horse **164**: 71–3 (SC)
gastrointestinal disorders, plasma trypsin level in horses with acute intestinal obstruction **163**: 283–91
genetics
  congenital sensorineural deafness in dalmatians **163**: 311–18
  N-ras mutation in feline lymphoma **163**: 326–8 (SC)
glucocorticoids, dexamethasone increases serum leptin concentration in dogs **164**: 295–7 (SC)
glycerol, canine semen freezing and **164**: 244–6 (SC)
goat
  enrofloxacin pharmacokinetics in **163**: 85–93
  Mycobacterium bovis infection in UK wild mammals **164**: 99–105 (R)
  polymerase chain reaction (PCR) to detect brucella species in milk of infected animals **163**: 299–305
greyhound, tonsillar enlargement and racing performance in **164**: 106–15
growth plate, therapeutic ultrasound and distal antebrachial growth plates in one-month-old rabbits **164**: 280–7

haemolysis, effect of on capillary zone electrophoresis of canine samples **164**: 261–8
Hammondia heydorni, coprodiagnosis of *Hammondia heydorni* in dogs by PCR **163**: 147–54
hantavirus, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
hay, white muscle disease in lambs, selenium content of soil and meadow hay **163**: 214–17 (SC)
heartworm, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
heat acclimation, neuroendocrine responses of horses to treadmill exercise, effect of on **164**: 54–63
heaves, cardboard bedding for heaves-affected horses **163**: 319–25
hedgehog, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
herpesvirus
  equine influenza-herpesvirus combination vaccine **164**: 288–91 (SC)
  wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
hind limb, canine: calculation of forces during three-legged stance **163**: 240–50
histology, lung carcinosarcoma in dog **163**: 331–4 (SC)
honeybee, control of *Varroa destructor* in colonies using oxalic acid **163**: 306–10
horse
  atrial fibrillation
    equine model of **164**: 142–50
    onset and perpetuation **164**: 87–9 (GE)
  blood plasma concentrations of insulin-like growth factor-I (IGF-I) in resting standardbred horses **163**: 45–50
  body composition and muscle architecture: implications for performance **164**: 224–34 (R)
  body fat: handicap to racehorses? **163**: 223–5 (GE)
  cardboard bedding for heaves-affected horses **163**: 319–25
  clinical obstructive pulmonary disease, relationship between clinical signs and pulmonary function in **163**: 187–95
  doramectin and ivermectin, pharmacokinetics after oral administration in horses **163**: 161–7
  exercise in
    effect of thermal stress on neuroendocrine responses to treadmill exercise **164**: 54–63
    endothelin response during and after **164**: 38–46

structure and function in the exercising horse **164**: 168–70 (GE)
fat-free mass related to performance in standardbred horses **163**: 260–6
forelimb lameness, computerized detection of using artificial neural network **163**: 77–84
fractures, a preventable hazard of racing thoroughbreds **163**: 5–6 (GE) **163**: 19–29 (R)
gait studies, morphological variation and mechanical energy cost **164**: 71–3 (SC)
influenza vaccine and influenza-herpesvirus combination vaccine **164**: 288–91 (SC)
infrared thermography to detect injection and palmar digital neurectomy in **164**: 129–41
erratum **164**: 306–8
Mycobacterium bovis infection in UK wild mammals **164**: 99–105 (R)
pharmacokinetics of cephalexin in **164**: 74–6 (SC)
plasma trypsin level in horses with acute intestinal obstruction **163**: 283–91
prohibited practices in equine sport—rooting out malpractice **164**: 83–4 (GE)
structure and function in the exercising horse **164**: 168–70 (GE)
hyoid, unilateral agenesis of in a dog **164**: 156–8 (SC)

immunohistochemistry
canine toxoplasmosis, IFAT, ELISA, and SAG-1 reactivity in **163**: 94–8 (SC)
veterinary oncological pathology: current and future perspectives **163**: 7–18 (R)
in situ hybridization, double labelling for detection and differentiation in pigs with postweaning multisystemic wasting syndrome **164**: 247–53
indirect fluorescence antibody test, *Toxoplasma gondii* cut-off titres in dog sera using immunoreactivity to SAG-1 antigen as molecular marker of infection **163**: 94–8 (SC)
infectious diseases, wild animals as reservoirs of in the UK **163**: 128–46 (R)
infectivity, failure to spread bovine virus diarrhoea virus infection despite concurrent infection with bovine coronavirus **163**: 251–9
influenza
avian influenza research
meeting the needs of poultry veterinarians? **164**: 173–5 (GE)
recent developments in, epidemiology and immunoprophylaxis **164**: 202–15 (R)
equine influenza vaccine and equine influenza-herpesvirus combination vaccine **164**: 288–91 (SC)
wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
infrared thermography
to detect injection and palmar digital neurectomy in horses **164**: 129–41
erratum **164**: 306–8
injection, infrared thermography to detect in horses **164**: 129–41
insectivores, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
insulin-like growth factor (IGF-I), blood plasma concentrations of in resting standardbred horses **163**: 45–50
intestinal obstruction, plasma trypsin level in horses with acute intestinal obstruction **163**: 283–91
isoflurane, holter-monitoring in perianaesthetic period in dogs premedicated with dexmedetomidine **164**: 235–9
ivermectin, pharmacokinetics of after oral administration in horses **163**: 161–7

joint force, canine hind limb: calculation of forces during three-legged stance **163**: 240–50

lagomorphs, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
lamb
pre-natal *Chlamydophila abortus* exposure and outcome of first pregnancy **163**: 329–30 (SC)
tail docking by rubber ring **164**: 240–3 (SC)
white muscle disease in, and selenium content of soil and meadow hay **163**: 214–17 (SC)
lameness
in cattle
sole ulcers in dairy cattle, effect of therapeutic dietary biotin on healing of **163**: 51–60
support structures of bovine hooves, changes in around time of first calving **163**: 196–204
systematic compilation and classification of literature **164**: 7–19 (R)
in dog, chondrocalcin concentration in serum and synovial fluid **163**: 211–13 (SC)
Cochrane approach: a new initiative **164**: 3–4 (GE)
in horse, computerized detection of supporting forelimb lameness using artificial neural network **163**: 77–84
laser capture microdissection (LCM), veterinary oncological pathology: current and future perspectives **163**: 7–18 (R)
latency, *Mycobacterium bovis* infection and tuberculosis in cattle **163**: 115–27 (R)
leptin, dexamethasone increases serum leptin concentration in dogs **164**: 295–7 (SC)
leptospirosis, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
Leydig cells, boar scrotal and abdominal testes, histochemical study of interstitial tissue **163**: 68–76
lignocaine, comparison with epidural anaesthesia in cat **163**: 335–6 (SC)
lipaemia, effect of on capillary zone electrophoresis of canine samples **164**: 261–8
liver fluke, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
live vectored vaccines, as management tool in veterinary medicine **164**: 188–201 (R)
louping ill, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
lumbar epidural pressure, effect of postural change on in cattle **164**: 292–4 (SC)
lung carcinosarcoma, in dog, gross and microscopic examination **163**: 331–4 (SC)
lung function *see* pulmonary function
lungworm, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
Lyme disease, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
lymphoma, *N-ras* mutation in feline lymphoma **163**: 326–8 (SC)

mammals, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
mastitis
an evolving disease **164**: 116–28
how to get out of the Dark Ages **164**: 85–6 (GE)
matrix metalloproteinase, in canine pulmonary eosinophilia **163**: 168–81
meadow hay, white muscle disease in lambs, selenium content of soil and meadow hay **163**: 214–17 (SC)
mechanical energy, equine gait: morphological variation and mechanical energy cost **164**: 71–3 (SC)
metabolic adaptation
calves: effect of resuscitation procedures on respiratory and metabolic adaptation to extra uterine life **163**: 30–44
optimal timing of elective Caesarean section in Belgian White and Blue cattle and **163**: 267–82
4-Methoxyamphetamine, death involving use of **164**: 298

microarrays, veterinary oncological pathology: current and future perspectives **163**: 7–18 (R)
milk
composition and milk cell characteristics in quarter milk fractions in cows with low cell count **164**: 254–60
polymerase chain reaction (PCR) to detect brucella species in milk of infected cattle, sheep, goats, and camels **163**: 299–305
mink, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
mites, control of *Varroa destructor* in bee colonies using oxalic acid **163**: 306–10
models *see* animal models
mole, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
molecular markers, *Toxoplasma gondii* cut-off titres in dog sera using immunoreactivity to SAG-1 antigen as molecular marker of infection **163**: 94–8 (SC)
motion analysis, supporting forelimb lameness in horse, computerized detection of using artificial neural network **163**: 77–84
mouse, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
moxidectin, topically applied to calves, breed differences on plasma availability of **164**: 47–53
mucosal disease, oesophagoscopy for diagnosis of in cattle **163**: 205–10
multiplex polymerase chain reaction (PCR), *Campylobacter* differentiation by **163**: 102–4 (SC)
Muntjac deer, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
muscles, horse body composition and muscle architecture: implications for performance **164**: 224–34 (R)
mutations, *N-ras* mutation in feline lymphoma **163**: 326–8 (SC)
Mycobacterium bovis
infection and tuberculosis in cattle **163**: 115–27 (R)
infection in UK wild mammals **164**: 99–105 (R)
Mycoplasma gallisepticum, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)

neonate
calves: effect of resuscitation procedures on respiratory and metabolic adaptation to extra uterine life **163**: 30–44
optimal timing of elective Caesarean section in Belgian White and Blue cattle for adaptation **163**: 267–82
Neospora caninum, coprodiagnosis of *Hammondia heydorni* in dogs by PCR **163**: 147–54
neural network, supporting forelimb lameness in horse, computerized detection of using artificial neural network **163**: 77–84
neurectomy
infrared thermography to detect in horses **164**: 129–41
erratum **164**: 306–8
Newcastle disease, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
noradrenaline, neuroendocrine responses of horses to treadmill exercise, effect of on **164**: 54–63
N-ras mutation, in feline lymphoma **163**: 326–8 (SC)

obesity, dexamethasone increases serum leptin concentration in dogs **164**: 295–7 (SC)
oesophagoscopy, in cattle for diagnosis of mucosal disease **163**: 205–10
oncology
lung carcinosarcoma in dog, gross and microscopic examination **163**: 331–4 (SC)
N-ras mutation in feline lymphoma **163**: 326–8 (SC)
radiation therapy for tumor treatment in small companion animals **164**: 176–87 (R)
vaccine-associated-like fibrosarcoma at site of deep nonabsorbable suture in a cat **163**: 105–7 (SC)
veterinary oncological pathology: current and future perspectives **163**: 7–18 (R)
optimization, canine hind limb: calculation of forces during three-legged stance **163**: 240–50
orthopaedic disease
animal models for **163**: 230–1 (GE)
sheep as model for osteoporosis in humans **163**: 232–9 (R)
osteoporosis, sheep as model for in humans **163**: 232–9 (R)
ostrich, septicaemic pasteurellosis in **163**: 218–21 (SC)
otter, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
ovine reticulorumen, absorption of phosphate ions from ovine reticulorumen **163**: 182–6
oxalic acid, control of *Varroa desiructor* in bee colonies using **163**: 306–10

palmar digital neurectomy
infrared thermography to detect in horses **164**: 129–41
erratum **164**: 306–8
pancreas, plasma trypsin level in horses with acute intestinal obstruction **163**: 283–91
Paramyxovirus infection, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
parasitic diseases
control of *Varroa destructor* in bee colonies using oxalic acid **163**: 306–10
coprodiagnosis of *Hammondia heydorni* in dogs by PCR **163**: 147–54
wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
Pasteurella multocida, septicaemic pasteurellosis in ostriches **163**: 218–21 (SC)
pathology, veterinary oncological pathology: current and future perspectives **163**: 7–18 (R)
performance
in horses
body composition and muscle architecture: implications for performance **164**: 224–34 (R)
fat-free mass related to performance in standardbreds **163**: 260–6
infrared thermography to detect injection and palmar digital neurectomy in horses **164**: 129–41; **164**: 306–8
structure and function in the exercising horse **164**: 168–70 (GE)
in greyhound dogs, tonsillar enlargement and racing performance in **164**: 106–15
periodontitis, serum inhibition of *Porphyromonas gingivalis* protease in dog, cat, and sheep **163**: 99–101 (SC)
pets, radiation therapy for tumor treatment in **164**: 176–87 (R)
pharmacokinetics
of cephalexin in horse **164**: 74–6 (SC)
of doramectin and ivermectin after oral administration in horses **163**: 161–7
of enrofloxacin in goats **163**: 85–93
of moxidectin topically applied to calves, breed differences and plasma availability **164**: 47–53
phosphate ions, absorption of from ovine reticulorumen **163**: 182–6
pig
double *in situ* hybridization for detection and differentiation of porcine circovirus in animals with postweaning multisystemic wasting syndrome **164**: 247–53
porcine circovirus and postweaning multisystemic wasting syndrome—possible new links **164**: 171–2 (GE)
testicular damage from clenbuterol treatment **163**: 292–8
platelet precursors, bone marrow aspirates, quantification of thrombopoietic activity in dogs **164**: 269–74
polymerase chain reaction (PCR)

Brucella species in milk of infected cattle, sheep, goats, and camels detected by **163**: 299–305
Campylobacter differentiation by multiplex PCR **163**: 102–4 (SC)
coprodiagnosis of *Hammondia heydorni* in dogs by PCR **163**: 147–54
persistent bovine viral diarrhoea virus infection, pre-natal diagnosis by PCR detection of viral RNA in fetal fluids **164**: 151–5 (SC)
polymorphonuclear neutrophil leukocyte (PMN), composition and milk cell characteristics in quarter milk fractions in cows with low cell count **164**: 254–60
polynucleotide vaccines, as management tool in veterinary medicine **164**: 188–201 (R)
porcine circovirus
double *in situ* hybridization for detection and differentiation in pigs with postweaning multisystemic wasting syndrome **164**: 247–53
postweaning multisystemic wasting syndrome—possible new links **164**: 171–2 (GE)
Porphyromonas gingivalis, serum inhibition of *Porphyromonas gingivalis* protease in dog, cat, and sheep **163**: 99–101 (SC)
postural change, effect of on lumbar epidural pressure in cattle **164**: 292–4 (SC)
postweaning multisystemic wasting syndrome
double *in situ* hybridization for detection and differentiation of porcine circovirus in pigs with **164**: 247–53
porcine circovirus and, possible new links **164**: 171–2 (GE)
poultry disease
avian influenza research
meeting the needs of poultry veterinarians? **164**: 173–5 (GE)
recent developments in, epidemiology and immunoprophylaxis **164**: 202–15 (R)
pour-on formulation, moxidectin topically applied to calves, breed differences on plasma availability of **164**: 47–53
pox virus, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
pregnancy
placental transfer of albendazole sulphoxide enantiomers in sheep **163**: 155–60
pre-natal *Chlamydophila abortus* exposure and outcome of first pregnancy **163**: 329–30 (SC)
pre-natal diagnosis of persistent bovine viral diarrhoea virus (BVDV) infection by detection of viral RNA in fetal fluids **164**: 151–5 (SC)
pre-natal diagnosis, of persistent bovine viral diarrhoea virus (BVDV) infection by detection of viral RNA in fetal fluids **164**: 151–55 (SC)
pre-natal infection, pre-natal *Chlamydophila abortus* exposure and outcome of first pregnancy **163**: 329–30 (SC)
prizes, Bailliere Tindall Literary Prizes **163**: 1 (E)
probenecid, enrofloxacin pharmacokinetics in goats **163**: 85–93
propofol, holter-monitoring in perianaesthetic period in dogs premedicated with dexmedetomidine **164**: 235–9
protease, serum inhibition of *Porphyromonas gingivalis* protease in dog, cat, and sheep **163**: 99–101 (SC)
proteomics, veterinary oncological pathology: current and future perspectives **163**: 7–18 (R)
protozoa, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
pseudotuberculosis, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
pulmonary eosinophilia, canine, clinical findings and matrix metalloproteinases in **163**: 168–81
pulmonary function
cardboard bedding for heaves-affected horses **163**: 319–25
clinical obstructive pulmonary disease, relationship between clinical signs and pulmonary function in horses **163**: 187–95

Q fever, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)

rabbit
Mycobacterium bovis infection in UK wild mammals **164**: 99–105 (R)
ultrasound and distal antebrachial growth plates in one-month-old rabbits **164**: 280–7
racehorses
see also horse
body fat: handicap to racehorses? **163**: 223–5 (GE)
fat-free mass related to performance in standardbred horses **163**: 260–6
fractures, a preventable hazard of racing thoroughbreds **163**: 5–6 (GE) **163**: 19–29 (R)
prohibited practices in equine sport—rooting out malpractice **164**: 83–4 (GE)
racing performance *see* performance
radiation therapy, for tumor treatment in small companion animals **164**: 176–87 (R)
red deer, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
red mite infection, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
regional anaesthesia, comparison of epidural with lignocaine or xylazine in cats **163**: 335–6 (SC)
reproductive technology, canine semen freezing, effect of Tris-buffer, egg yolk, and glycerol on **164**: 244–6 (SC)
reservoirs of infection
getting wildlife and their diseases in perspective **163**: 111–12 (GE)
wild animals as reservoirs in the UK **163**: 128–46 (R)
respiratory adaptation
calves: effect of resuscitation procedures on respiratory and metabolic adaptation to extra uterine life **163**: 30–44
optimal timing of elective Caesarean section in Belgian White and Blue cattle and **163**: 267–82
resuscitation, newborn calves: effect of resuscitation procedures on respiratory and metabolic adaptation to extra uterine life **163**: 30–44
reticulorumen, absorption of phosphate ions from ovine reticulorumen **163**: 182–6
roe deer, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
rumen, absorption of phosphate ions from ovine reticulorumen **163**: 182–6
ruminants
bluetongue, re-emergence of **164**: 5–6 (GE)
bluetongue virus in the Mediterranean basin 1998–2001 **164**: 20–37 (R)

SAG-1 protein, canine toxoplasmosis, IFAT, ELISA, and SAG-1 reactivity to as molecular marker of infection **163**: 94–8 (SC)
salmonellosis, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
sarcoptic mange, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
segregation analysis, congenital sensorineural deafness in dalmations, genetics **163**: 311–18
selenium, white muscle disease in lambs, selenium content of soil and meadow hay **163**: 214–17 (SC)
semen freezing, canine semen, effect of Tris-buffer, egg yolk, and glycerol on **164**: 244–6 (SC)
septicaemic pasteurellosis, in ostriches **163**: 218–21 (SC)
serum, chondrocalcin concentration of in dogs **163**: 211–13 (SC)
shedding, *Candida glabrata*, influence of diet on shedding of by preweaned calves **164**: 275–9
sheep
absorption of phosphate ions from ovine reticulorumen **163**: 182–6

bluetongue, re-emergence of **164**: 5–6 (GE)
bluetongue virus in the Mediterranean basin, 1998–2001 **164**: 20–37 (R)
as model for osteoporosis in humans **163**: 232–9 (R)
placental transfer of albendazole sulphoxide enantiomers in **163**: 155–60
polymerase chain reaction (PCR) to detect brucella species in milk of infected animals **163**: 299–305
pre-natal *Chlamydophila abortus* exposure and outcome of first pregnancy **163**: 329–30 (SC)
serum inhibition of *Porphyromonas gingivalis* protease in **163**: 99–101 (SC)
trans-abdominal B mode ultrasonography to diagnose intra-partum uterine torsion in the ewe **164**: 69–70 (SC)
white muscle disease, selenium content of soil and meadow hay **163**: 214–17 (SC)
sheep scab, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
shrew, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
Sika deer, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
single breath diagrams for carbon dioxide, clinical obstructive pulmonary disease, relationship between clinical signs and pulmonary function in horses **163**: 187–95
soil, white muscle disease in lambs, selenium content of soil and meadow hay **163**: 214–17 (SC)
sole ulcers, therapeutic dietary biotin and healing of in dairy cattle **163**: 51–60
spine
intervertebral joints in canine pre-diaphragmatic thoracic spine, osteology and morphometry **164**: 216–23
lumbar epidural pressure and postural change in cattle **164**: 292–4 (SC)
squirrel, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
standardbred horses
see also horse
blood plasma concentrations of insulin-like growth factor-I (IGF-I) in resting animals **163**: 45–50
stoat, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
stress fractures, preventable hazard of racing thoroughbreds **163**: 5–6 (GE) **163**: 19–29 (R)
subunit vaccines, as management tool in veterinary medicine **164**: 188–201 (R)
swine fever, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
synovial fluid, chondrocalcin concentration of in dogs **163**: 211–13 (SC)

tail docking, in lambs by rubber ring **164**: 240–3 (SC)
testes
boar scrotal and abdominal testes, histochemical study of interstitial tissue **163**: 68–76
testicular damage from clenbuterol treatment in pig **163**: 292–8
thermal stress, neuroendocrine responses of horses to treadmill exercise, effect of on **164**: 54–63
thermography
to detect injection and palmar digital neurectomy in horses **164**: 129–41
erratum **164**: 306–8
thermophilic bacteria, isolation and identification of thermophilic *Campylobacter* spp. from animals in Brazil **164**: 159–61 (SC)
thoracic spine, intervertebral joints in canine pre-diaphragmatic thoracic spine, osteology and morphometry **164**: 216–23
thoroughbred racehorses *see* racehorses
three-legged stance, canine hind limb: calculation of forces during **163**: 240–50
thrombopoiesis, quantification of thrombopoietic activity in bone marrow aspirates of dogs **164**: 269–74
thyrohyoid muscle, unilateral agenesis of in a dog **164**: 156–8 (SC)
tick-borne fever, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
tonsils, enlargement of and racing performance in greyhounds **164**: 106–15
Toxoplasma gondii, canine toxoplasmosis, IFAT, ELISA, and SAG-1 reactivity in **163**: 94–8 (SC)
trans-abdominal B mode ultrasonography, to diagnose intra-partum uterine torsion in the ewe **164**: 69–70 (SC)
transmission of disease *see* disease transmission
Tris-buffer, canine semen freezing and **164**: 244–6 (SC)
tuberculosis
Mycobacterium bovis infection and tuberculosis in cattle **163**: 115–27 (R)
Mycobacterium bovis infection in UK wild mammals **164**: 99–105 (R)
new perspectives in bovine tuberculosis **163**: 109–10 (GE)
wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
tumors
lung carcinosarcoma in dog, gross and microscopic examination **163**: 331–4 (SC)
radiation therapy for tumor treatment in small companion animals **164**: 176–87 (R)
turkey, avian influenza research: meeting the needs of poultry veterinarians? **164**: 173–5 (GE)
typhoid, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)

ultrasound
distal antebrachial growth plates in one-month-old rabbits and **164**: 280–7
trans-abdominal B mode ultrasonography to diagnose intra-partum uterine torsion in the ewe **164**: 69–70 (SC)
uterine torsion, trans-abdominal B mode ultrasonography to diagnose intra-partum uterine torsion in the ewe **164**: 69–70 (SC)

vaccination
avian influenza research
epidemiology and immunoprophylaxis **164**: 202–15 (R)
meeting the needs of poultry veterinarians? **164**: 173–5 (GE)
Babesia bovis and *Babesia bigemina*: persistence of infection following vaccination with antibabesial vaccines **164**: 64–8
equine influenza vaccine and equine influenza-herpesvirus combination vaccine **164**: 288–91 (SC)
as management tool in veterinary medicine **164**: 188–201 (R)
new vaccines **164**: 165–7 (GE)
virus neutralising antibodies against bovine viral diarrhoea virus isolates in vaccinated calves **163**: 61–7
vaccine-associated-like fibrosarcoma, at site of deep nonabsorbable suture in a cat **163**: 105–7 (SC)
Varroa destructor, control of in bee colonies using oxalic acid **163**: 306–10
vertebrae, intervertebral joints in canine pre-diaphragmatic thoracic spine: osteology and morphometry **164**: 216–23
viral diseases, wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
virus neutralising antibodies, against bovine viral diarrhoea virus isolates in vaccinated calves **163**: 61–7
vole, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)

weaning, post-weaning feeding problems in young domestic cats **163**: 113–14 (SC)
white muscle disease, in lambs, and selenium content of soil and meadow hay **163**: 214–17 (SC)
wild boar, *Mycobacterium bovis* infection in UK wild mammals **164**: 99–105 (R)
wildlife
  getting wildlife and their diseases in perspective **163**: 111–12 (GE)
  Mycobacterium bovis infection in UK wild mammals **164**: 99–105 (R)
  wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
xylazine, comparison with epidural anaesthesia in cat **163**: 335–6 (SC)

zoonoses
  getting wildlife and their diseases in perspective **163**: 111–12 (GE)
  Mycobacterium bovis infection in UK wild mammals **164**: 99–105 (R)
  thermophilic *Campylobacter* spp., isolation and identification from animals in Brazil **164**: 159–61 (SC)
  wild animals as reservoirs of infectious diseases in the UK **163**: 128–46 (R)
